The New Jersey Department of Environmental Protection (Department) is making funds available to Counties for the implementation of activities required by Municipal Stormwater Regulation Program. Specific activities from the Highway Agency General Permit, New Jersey Pollutant Discharge Elimination System Permit No. NJ0141887 (Highway Permit) have been identified below. These activities represent only a partial list of the requirements of this permit. These funds may also be used to implement other aspects of the stormwater program as long as the requirements below are satisfied. 75 percent of the funds are released upon receipt by the Department of a signed agreement and the remaining 25 percent of the funds are released upon receipt by the Department of the Certification documenting completion of the required activities. **This Application must be submitted to the address above on or before April 29, 2005.**

- Prepare and begin implementing a Local Public Education Program as required by the Highway Permit;
- Label 50% or one sector of all required storm drain inlets within 36 months from EDPA (see Storm Drain Inlet Labeling SBR); and
- Divide the Highway Agency's MS4 into two sectors for the purposes of outfall mapping, and map the location of the end of all small MS4 outfall pipes in the first sector within 36 months from EDPA.

*A signed agreement between the Department and your County will be required in order to release funds. The Department will prepare the agreement and forward to the County.*

Signature of principal executive officer or ranking elected official of the County:
